*God is at work...around the world...among the nations.* Through His church, Jesus is telling His story of grace to those who have NOT HEARD. Advancing Native Missions partners with faithful believers who are serving the one true God in their homelands. These missionaries know the language, the people, and the culture because they ARE the natives. They are courageous, sacrificial, obedient, compassionate, fruitful individuals who are evangelizing, planting churches, discipling, and meeting needs. God is at work through them. Join Him and partner with native missionaries to reach the remaining unreached...*'til all hear.*
